012009

Dear Sir,

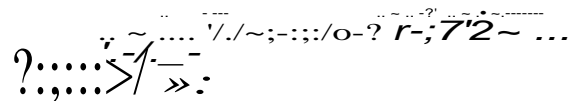

We have had another quiet month at the airport with little to report. The repairs I made to the perimeter fence have held up and there have been no significant incidents since our last meeting.

No deer have been killed pursuant to the depredation program. I have been using automatic night vision cameras to count and track deer movements. I believe that only eight deer remain on the airport. They are all traveling together and appear to be completely nocturnal. I will continue to try to thin out those that are left.

I tagged and aircraft on the west ramp which has been parked there for some time and whose owner we cannot locate.

Otherwise we remain in good shape.

Sincerely,

A handwritten signature in black ink, appearing to read 'Wesley M. Honeycutt'. The signature is stylized and somewhat difficult to decipher due to the cursive and overlapping lines.

/ Sgt. Wesley M. Honeycutt
